

PRE-REQUISITES

Recommended tools

SAFETY

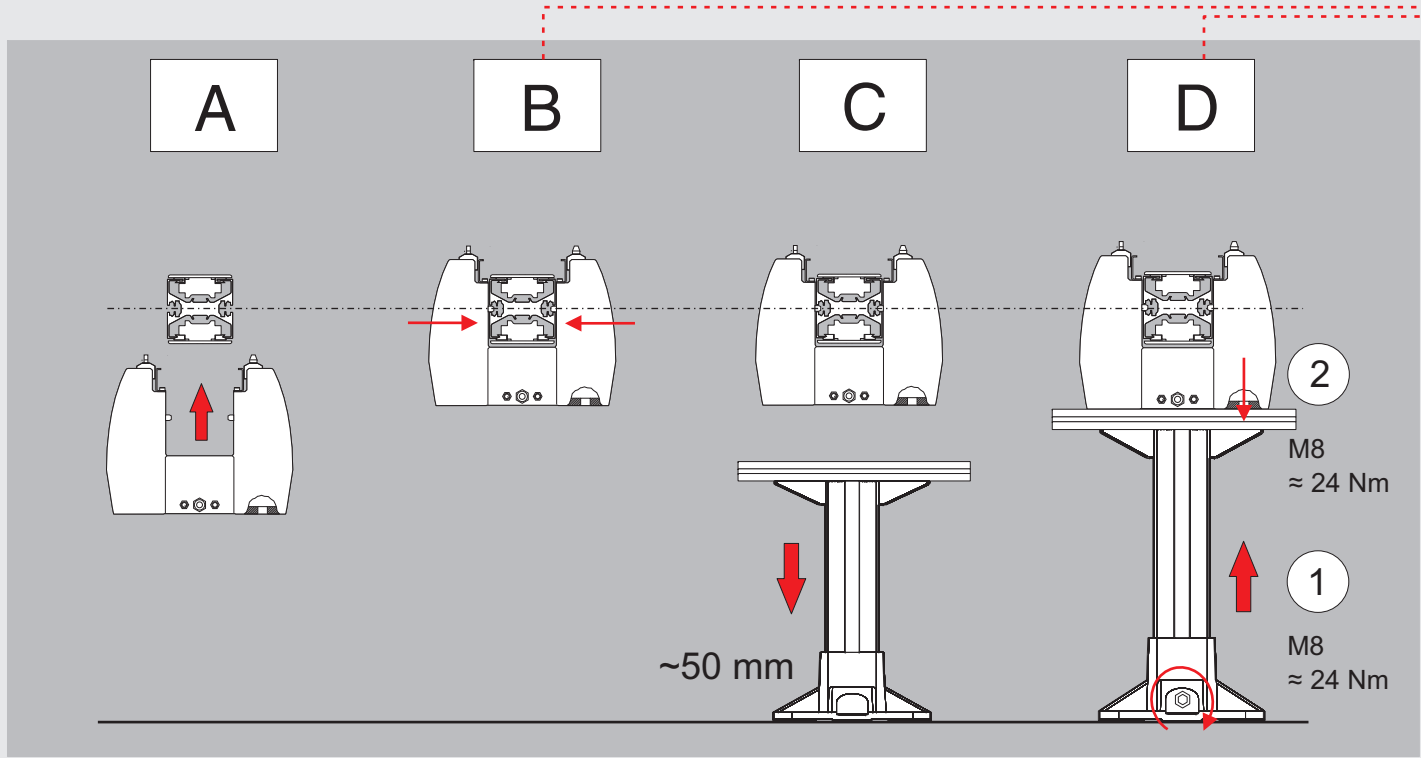

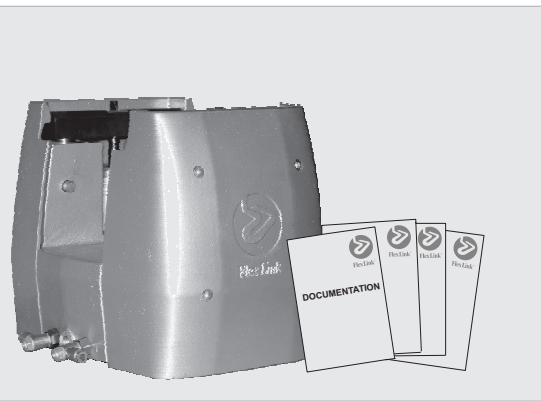

**WARNING**  
The system must not be operated without safety equipment properly mounted.

**WARNING**  
At installation, maintenance and service, make sure the motor is shut off.

**WARNING**  
Moving parts.

**CAUTION**  
Due to heavy weight - 2 person lift, or mechanical lift equipment.

COMPONENTS

**CAUTION!**  
Safety Equipment e.g. support beam type XCBM Lx44x176 must be mounted, a large crush hazard exists.

Safety equipment, delivered with Pneumatic stop for locating station

The Pallet locating station could be pressurized, contact of different type than pallets can also activate the lifting / lowering movement. This can cause crush hazard.

Compressed air connection ~6 bar
