

## X85 PALETT SYSTEM XBPP 160x\_LL

### INTRODUCTION

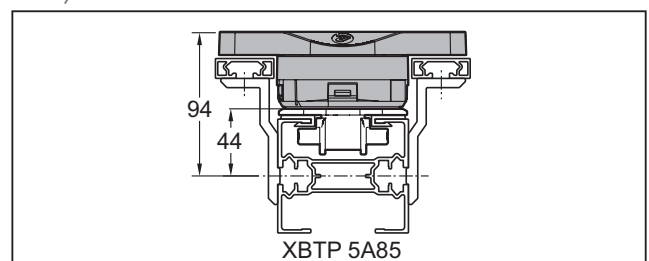

The X85 pallet offer is now expanded with a new version of pallets for all sizes and for clean environments. The pallet have a plastic slide plate with lubrication that generate a low friction against the standard chain.

The slide plates are available as separate items and can be used to upgrade currently installed pallets that have plastic slideplates or slide plates with rollers. Guide discs with lubricated slide plates are available for customized pallets.

### STANDARD FEATURES

- Plastic slide plate with low friction
- Coefficient of friction,  $\mu=0.15$ , against the standard chain XBTP 5A85
- The slide plates can be used for upgrade of pallet B/\_/L
- Lubricated for life
- High wear resistance

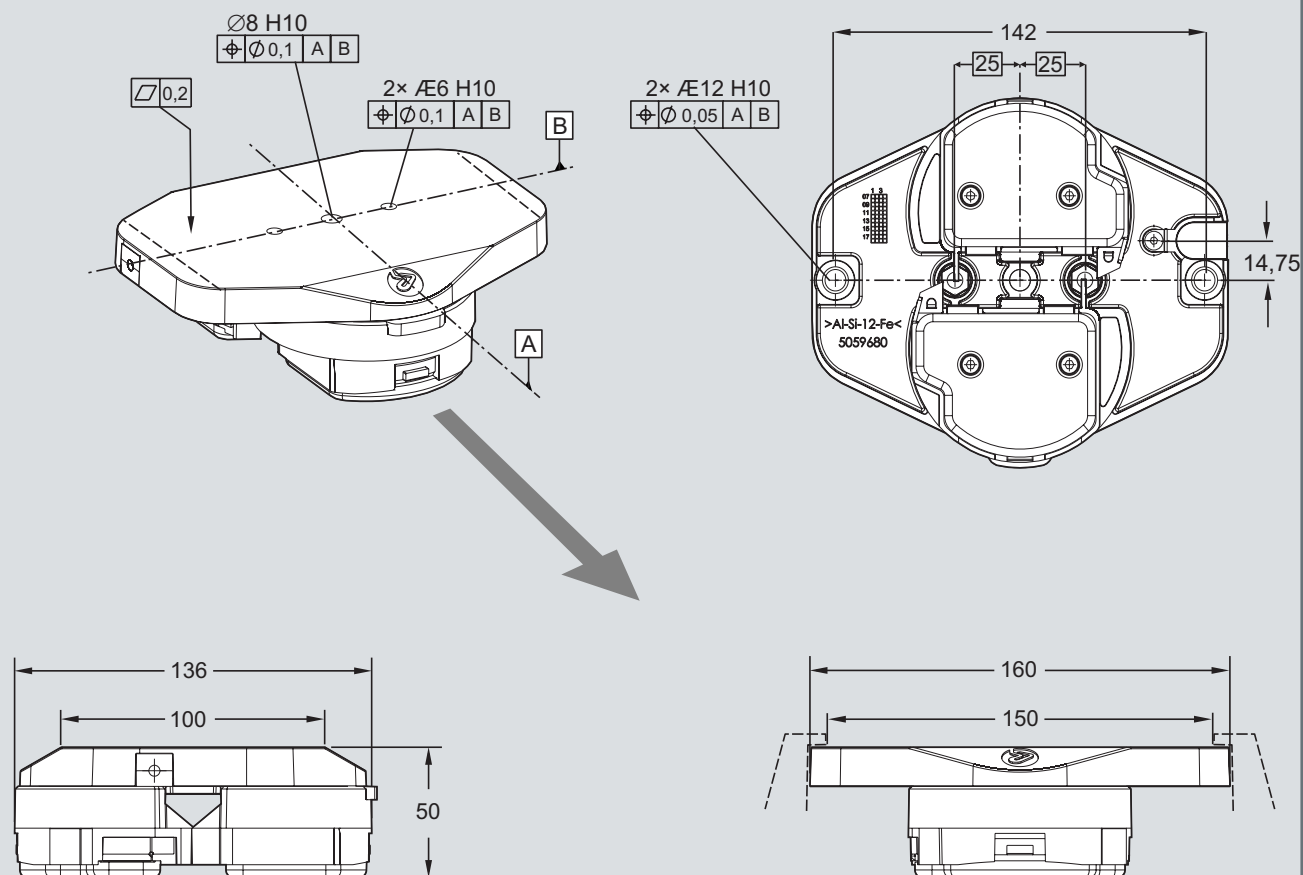

*Note. The pallet should be used with the XBTP 5A85 chain in order to fit all other pallet system accessories.*

## Ordering information

Pallet 160 mm × 100 mm

### XBPP 160×100 LL

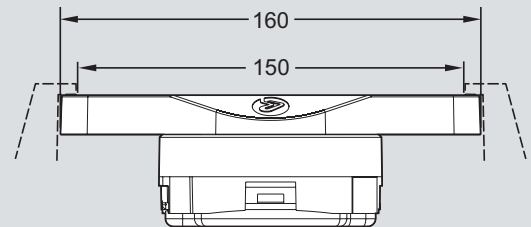

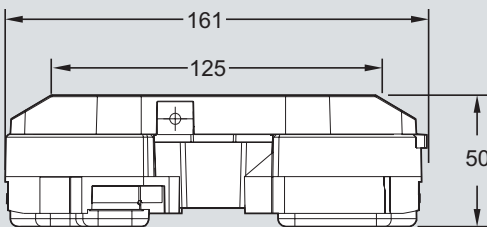

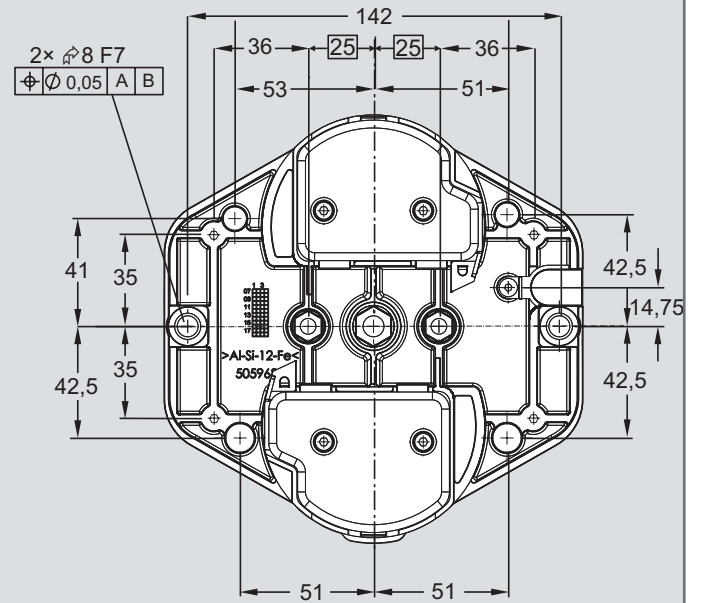

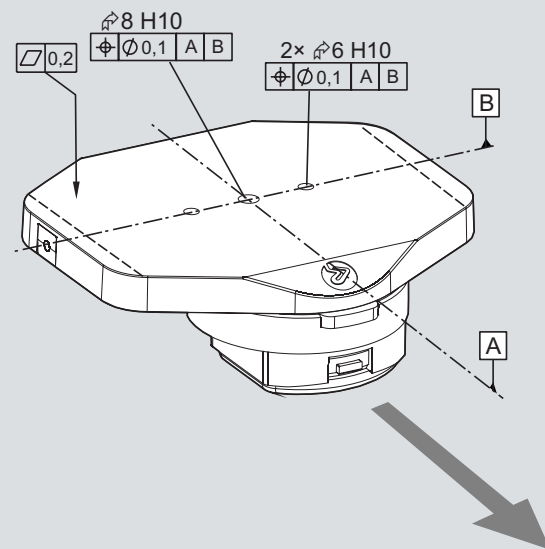

Pallet 160×100, h = 50

Lubricated

**XBPP 160×100 LL**

# Pallet 160 mm × 125 mm

## XBPP 160×125 LL

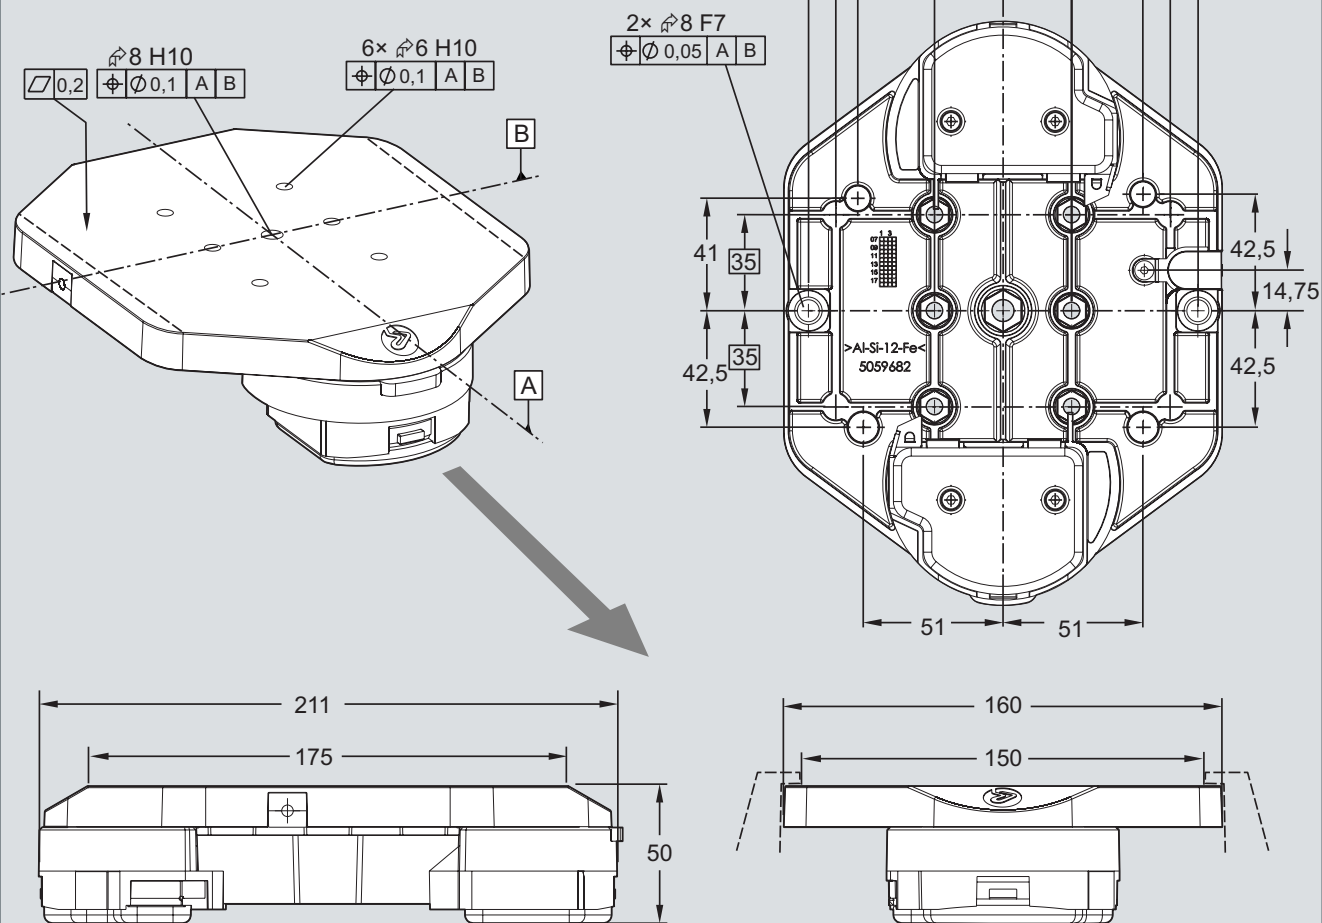

Pallet 160×125, h = 50

Lubricated

**XBPP 160×125 LL**

# Pallet 160 mm × 175 mm

## XBPP 160×175 LL

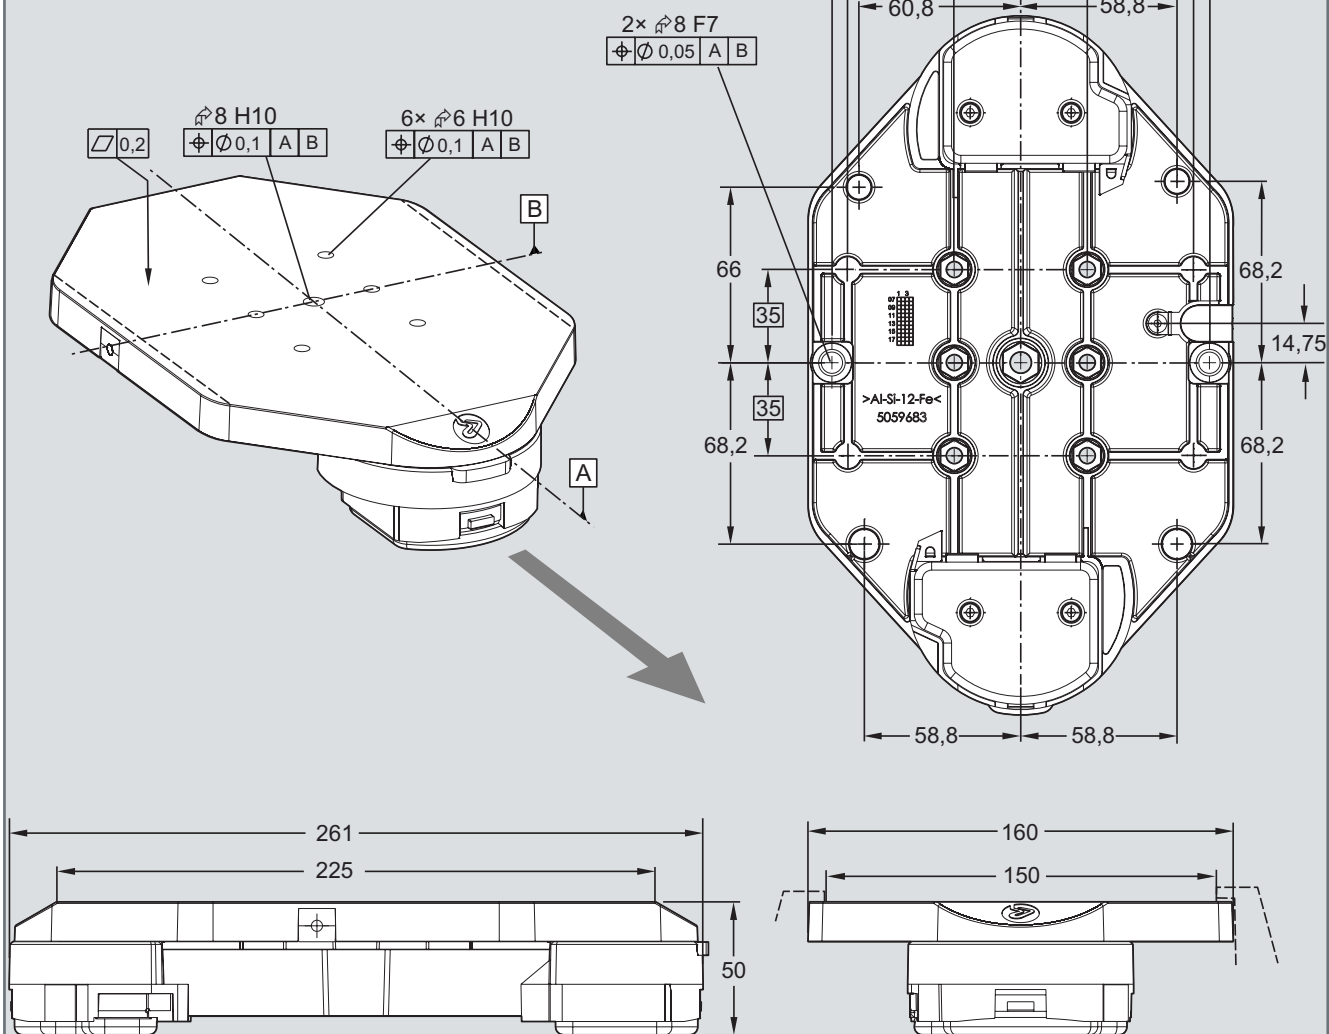

Pallet 160×175, h = 50

Lubricated

**XBPP 160×175 LL**

Pallet 160 mm × 225 mm

## XBPP 160×225 LL

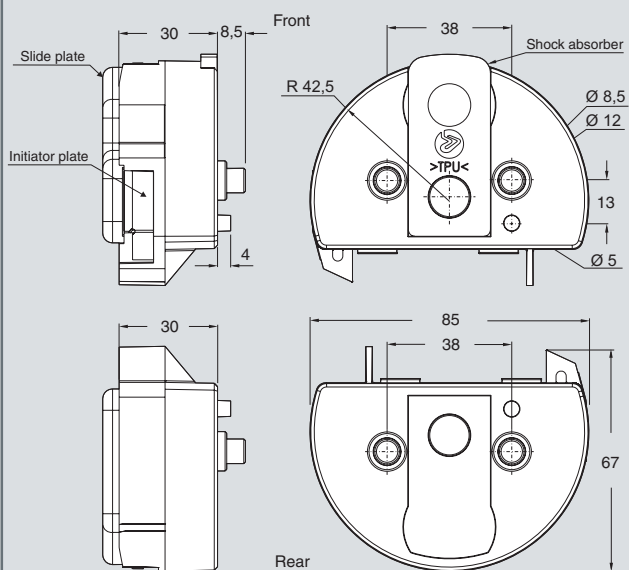

Pallet 160×225, h = 50

Lubricated

**XBPP 160×225 LL**

## Guide disc

### Guide disc

Lubricated (Rear)\*

**XBPG 85 PL**

Lubricated (Front)\*\*

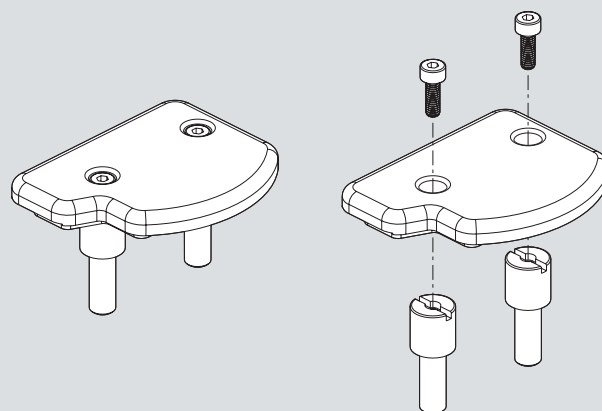

**XBPG 85 DPL**

\*) Including slide plate, initiator plate
