# CartonLoad

## No more manual loads, no hands on cartons

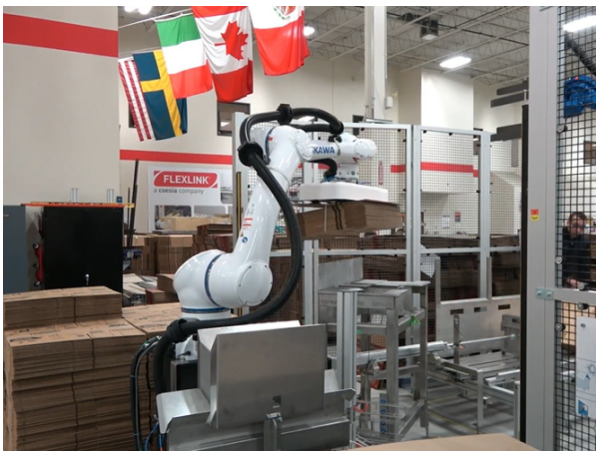
A completely customized carton loader to automatize blank feeding to the case former, through vision guided systems, adaptable to both collaborative or industrial environment.

## Technical Specification

| | |
|---|---|
| **Function** | Automatic blank feeding to the case former |
| **Vision** | Locates pallet stack, computes the movements |
| **Versions** | Cobot (small cartons) or industrial (complex) |
| **Automation** | Automatic strap cutting |
| **Handling** | Group pick & deposit into former magazine |
| **Optional** | Multi-format & interlayer handling |

## Key highlights

- Removes non-ergonomic tasks
- Vision-guided
- Cobot or industrial



Ideal for:
Automated Lines with limited floor space, multi shift operation and aiming at full automation of manual activities.
