## Revision list

Doc ID	Date	Type of revision	Entered by
5358EN-1	2006-11-28	Initial version	BS
5358EN-2	2008-02-26	Change of motor	BS
5358EN-3	2010-12-16	Sensor	JE
5358EN-4	2015-03-06	Motor added Guide units	KR
5358EN-5	2020-11-20	Item no updated	TG

## Compatibility with previous guide unit models

Due to a speed difference, all guide unit motors in a line controlled by a common control unit must be of the same type (either 5059231 or 5111436). Motor type 5111436 is recommended due to higher durability.

## Spare parts for AGS guide units and cables

Item	Description	Part No	Comments
1	Electric motor	5056912 5111361 5118049	Used in guide units with no suffix, suffix A, F or AF Used in guide units with suffix B or BF Used in guide units with suffix C or CF
2	Locking slide (plastic bag containing 10 pcs)	5059633	Used in guide units and in cable connectors.
3	Inductive sensor	IQ8-04NPS-KT0, 7900201, SICK	
4	Magnetic sensor	MQ10-60APS-KT0, 7900280, SICK
