

POLICY COMMUNITY

Beyond the major global programs initiated by the Group, each Unit is encouraged to undertake local actions relevant to its local situation. In addition our management encourages all employees to find activities which can support less privileged people in education, health initiatives, and training. We make a positive impact in our society by promoting in our company voluntary work.

We encourage dialogue with local communities for mutual benefit, by focusing on equality, diversity and non-discrimination.

FlexLink supports the United Nations' Universal Declaration of Human Rights and a number of globally recognized declarations for multinational enterprises and is a participant of the UN Global Compact.
